3DSystems in São Paulo

Airbus objectives for Fly Your Ideas 2017

Fly Your Ideas 2017: 5 genuine industry challenges

Business Models

What else could be done with aircraft other than transportation?

Flight Operations

How can big data be used to improve efficiency of flight operations?

Passenger Experience

How can new processes or layouts ease passenger boarding and disembarking, whilst increasing capacity for luggage?

Design Engineering

How can artificial intelligence support aircraft design and/or manufacturing?

Manufacturing

How can manufacturing be optimised to reduce waste and ensure the sustainability of resources?

Fly Your Ideas 2017: 3 rounds and a final

Launch

- 5 challenges proposed
- Students sign up

June 2016

Round 1: ideas collection

- Students submit ideas in teams
- Airbus experts support

Sept. 2016

Round 2: ideas development

- 50 teams selected
- Airbus mentors assigned to teams

Jan. 2017

Round 3: final

- 5 finalist teams
- Prototypes created
- 1 winner & 1 runner-up

April & May 2017

Meet the challenge !

Fly Your Ideas is a biennial global competition, organised in partnership with UNESCO, which challenges students to innovate for the future of aviation. At Airbus, we're constantly looking for new, better ways to fly and that's what Fly Your Ideas is all about. Find out more about how the competition works and how you can be the first to hear our future editions. The competition is open to teams of 3 to 5 students from around the world, currently studying for a Bachelors, Masters or PhD in any academic discipline. Taking part is a unique opportunity for students to out their classroom learning and research to the test, by working with a team of
