

Bombardier Presence at Singapore Airshow Underscores its Significant Momentum in the Asia-Pacific Region

Montréal, January 31, 2017 – Bombardier Commercial Aircraft will be displaying a Philippine Airlines dual-class 86-seat Q400 regional turboprop, as well as an airBaltic CS300 aircraft at the 2018 Singapore Airshow, which runs from February 6 to 11.

“Asia-Pacific is a region of unmatched opportunities where Bombardier has recently gained significant momentum. The CS300 aircraft’s recent Asian commercial debut with Korean Air Lines highlights our breakthrough into the region’s fast-growing market,” said Fred Cromer, President, Bombardier Commercial Aircraft. “Passenger demand in the region is increasing fast, driving demand for more short-haul aircraft, more flight frequencies and more city pairs to increase connectivity. We are confident our product line-up will continue to be instrumental in supporting intra-regional growth, as well as further protecting passenger yields in the region.”

The Asia-Pacific region is Bombardier Commercial Aircraft’s fastest growing market with strong demand for small single-aisle aircraft like the C Series, as well as larger regional turboprops and jets.

“The high-performing Q400 aircraft has proven to serve the Asia-Pacific region very well. Bombardier acted well ahead of the market trend toward larger turboprops when it introduced the 90-seat Q400 turboprop at the Singapore Airshow two years ago. The Q400 aircraft ushered in a new era of turboprops, and the recent SpiceJet reorder for up to 50 new 90-seat Q400 turboprops is another great example of our strong market penetration.”

Singapore is the headquarters for Bombardier’s operations in the Asia-Pacific region. Bombardier has been steadily growing its after-sales support in Asia-Pacific to keep pace with the ever-increasing fleet of its aircraft. The company’s Customer Services network for commercial aircraft in the region includes five Regional Support Offices in Shanghai, Tokyo, Delhi, Singapore and Sydney, and Bombardier-authorized Service Facilities operated by STAECO in Jinan, China, Hawker Pacific in Cairns, Australia and GMR Aero Technic in Hyderabad, India.

Bombardier’s exhibit at the airshow will also showcase a Challenger 350 and Global 6000 corporate aircraft at the airshow. Bombardier’s chalet is located at CD 55-59. The company will hold a series of media briefings and events during the show. Members of the media are invited to check the briefing schedule daily at the Media Centre for details and latest updates.

About Bombardier

Bombardier is the world's leading manufacturer of both planes and trains. Looking far ahead while delivering today, Bombardier is evolving mobility worldwide by answering the call for more efficient, sustainable and enjoyable transportation everywhere. Our vehicles, services and, most of all, our employees are what make us a global leader in transportation.

Bombardier is headquartered in Montréal, Canada and our shares are traded on the Toronto Stock Exchange (BBD). In the fiscal year ended December 31, 2016, we posted revenues of \$16.3 billion. News and information are available at bombardier.com or follow us on Twitter [@Bombardier](https://twitter.com/Bombardier).
