Today's decision is a victory for innovation, competition, and the rule of law. It is also a victory for U.S. airlines and the U.S. traveling public. The C Series is the most innovative and efficient new aircraft in a generation. Its development and production represent thousands of jobs in the United States, Canada, and the United Kingdom. We are extremely proud of our employees, investors and suppliers who have worked together to bring this remarkable aircraft to the market. With this matter behind us, we are moving full speed ahead with finalizing our partnership with Airbus. Integration planning is going well and we look forward to delivering the C Series to the U.S. market so that U.S. airlines and the U.S. flying public can enjoy the many benefits of this remarkable aircraft.
